

CUSTOMER SUCCESS STORY

ATOS ORIGIN

Rail House
Gresty Road
Crewe
CW2 6EA

4th and 10th Floor Office Refurbishment

Including Building Fabric, Mechanical & Electrical Services, Structured Cabling Infrastructure and Comfort Cooling.

Kitchen Breakout Area

New Meeting Room Facilities

Rail House, Crewe is a Multi Tenanted 13-Storey Building located adjacent to the Railway Station in Crewe.

After securing new business to provide Call Centre Facilities for a Major Telecoms Provider and also the NHS, the client extended their existing lease across additional floors.

Project Overview

Carter Synergy delivered a full turnkey package covering two call centre facilities on the 4th Floor (200m²) and the 10th Floor (400m²), including Daikin 3-Pipe VRV Comfort Cooling.

Power Supplies to the floors are critical and essential services were connected to both UPS and generated supported distribution.

Equipment was selected from Government ECA schedules.

Ventilation within the areas was provided using Energy Efficient Daikin VAM Heat Recovery Systems.

The project required close liaison with the Clients Facilities Managers, Project Managers and End Users.

Project Programme

November 2006 to January 2007
8-Weeks Onsite

Project Budget

£410k
