

LONDON DENTAL EDUCATION CENTRE
King's College, London

High Specification Dental Education Centre

A new £1.5m London Dental Education Centre (LonDEC) to form part of the King's College London Dental institute.

Dental professionals across the capital will benefit from a new state-of-the-art London Dental Education Centre, which will help drive up training and improve clinical standards.

Project Overview

The centre comprises a dental skills room equipped with 26 stations, eight of which include microscopes, cutting edge clinical simulation facilities, a dedicated lecture room catering for up to 50 delegates as well as break out rooms.

Furthermore LonDEC now has a full immersion simulation suite for team training in both infection control and the management of dental emergencies.

Carter Synergy provided a main contractor role, which included the integration of nominated specialist, employed directly by the client.

The scope of works included:

Demolition - removal of existing laboratory facilities.

Modular Offices - comprising of student academic centre, seminar room, break out area, Directors offices, training room and simulation suite.

Partitioning systems from Komfort with encapsulated blinds.

3-Pipe VRF comfort cooling system and associated BMS controls.

Roof mounted air handling units & ventilation systems.

Training facilities - including Corian worktops, natural gas, water & compressed air to mannequins.

Seminar facilities - including AV systems linked to training room & simulation suite.

All associated decoration, flooring (complete with LonDEC Corporate Logo), reception counter with integrated electrical & network services, access control, fire alarm alterations and ICT Infrastructure.

Project Programme

December 2008 to April 2009
